**Hands-On  
Training for  
Real-Life  
Emergencies  
at Sea**

Valuable  
& effective  
training

provided on demand . . .  
. . . where **you** want it!  
. . . when **you** need it!

AMSEA's 10-hour or 18-hour, U. S. Coast Guard-accepted training provides practical, hands-on experience in survival equipment use and procedures. It is recommended for fishermen, operators and crew of other commercial vessels, and all mariners who want to be able to respond quickly and effectively to an emergency at sea.

Topics covered include:

- Cold Water Survival Skills
- Man Overboard Recovery
- Fire-Fighting
- Life Rafts
- Abandon Ship Procedures
- Helicopter Rescue
- Immersion Suits
- Personal Flotation Devices
- Flares & Other Emergency Signals
- Maydays
- Flooding & Stability
- Safety Orientations
- How to Conduct Emergency Drills

AMSEA's Marine Survival Equipment, Procedures & Onboard Drills Training:

- Meets USCG requirements for commercial fishing vessels
- Provides up to seven days of sea service credit
- Is taught by experienced mariners

Thousands of fishermen and other mariners have already chosen to take this training. Their responses have been overwhelmingly positive:

"I feel better able to survive an actual emergency."  
— Cordova Fisherman

"The course really opened my eyes. It exceeded my expectations."  
— Seward course participant

"Very good. I recommend it to anyone involved in maritime operations. A must!"  
— Dutch Harbor Fisherman

"Realistic training that was contoured to actual situations and vessel."  
— Ketchikan Fisherman

"It was all so good! But the hands-on was wonderful."

— Sitka course participant
