

Marine Safety Training

AMSEA MARINE SAFETY INSTRUCTOR COURSE

Sitka, Oct. 18-24, 1999

This is the only U.S. Coast Guard-approved marine safety instructor course in the U.S. It is appropriate for people teaching agency personnel, school children, recreational boaters, commercial fishermen or other mariners. Cost is \$355. Up to three 500-level University of Alaska credits are available for an additional \$35. Contact AMSEA for more information or to register.

Another AMSEA instructor-trainer class is scheduled for **Seward**, in the later part of **March, 2000**.

OUTDOOR SAFETY WORKSHOPS OFFERED FOR SCHOOL TEACHERS

A series of three-day workshops for teachers continues as part of AMSEA's three-year **Cold Water Safety in the Schools** project. The next workshop for those who want to introduce an interdisciplinary outdoor adventures curriculum into the schools will take place in **Petersburg, AK, Sept. 30 through Oct. 1, 1999**.

Participants receive a K-12 curriculum, **Outdoor Adventures**, compatible with Alaska school standards. This curriculum contains a wealth of hands-on learning activities that teach safe outdoor practices and survival skills on shore and sea. Follow-up teaching assistance is available from experienced AMSEA instructors. Up to two University of Alaska credits are available for \$35. For qualified teachers, there is no fee for the course or materials.

Other workshops are tentatively planned in Sand Point and Bethel.

F/V SAFETY REFRESHER

Astoria, Oregon, Sept. 16 & 17

A two-day class thanks to Clatsop Community College and Oregon Sea Grant. Designed for instructors experienced with the required Drill Instructor class. For information, contact Ginny Goblirsch in Newport, Oregon at (503) 265-3463.
